THE above are First Class, justly popular, and prompt paying companies. They invite investigation into their condition and solicit business entirely upon their real merits. In point of solveney and reliability and honorable dealing, they have but five equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and unotyages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreciated below par, and are every way more reliable and permanent than railroad, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of panic, as the experience of the past teaches, to become almost, if not entirely, valueless. And while there are Companies entering the field of compedition, well calculated to mislead by publishing partial and one-sided statements of their condition, and without a cash surplus on hand sufficient to reinaure their outstanding risks, the shove named companies always have and keep over and above their capital twice the amount, and in most instances four times, needed for the relusurance of all their risks. With such a foundation, and with such a condition, they claim the right to look with confidence to the public for liberal patronage.

Policies issued without delay, and farms risks for a series of years taken at loss rates than can be done by Mutual Companies, and a certainty given instead of an ancertainty. All losses promptly adjusted and paid.

Tiresville, Pa., July 6, 1860. THE PENNSYLVANIA OIL WELLS .-- I have been for some two weeks past in this "oury REGION" of Vennago county, in Wistern Pennsylvania, which is becoming quite extensively known from its oleaginous nature. By reference to the hotel registers I find all parts of the country represented. The palmiest days of California have hardly excelled this region in excitement, interest. and prospective wealth. The number of wells now being bored exceed over five hundred, and as quite a portion are now at a depth at which the oil is quite usually obtained, it is almost a daily occurrence to hear of a lucky STRIKE, at depths varying from 36 to 316 feet, though more generally from 150 to 250 feet. Every new well adds to the excitement, and increases the energy and prospects of those still boring ... It is now considered almost certain that oil can be obtained at almost any locality on Oil Creek, between Titusville and the mouth of the creek, a distance of some fourteen (14) miles. Also on the Alleghany river. from the mouth of Oil Creek to the mouth of Steward's Run, a distance of fourteen (14) miles. This is considered the oil BA. six, and is the territory that is sought after.

There are now some thirty wells that have proved successful, ranging in depth. from 36 to 316 feet, and yielding from 5 to 25 barrels of oil, each, per day, footing up a yield of 400 barrels per day. At the price now obtained for it in New York, (37) cents per gallon or \$15 per barrel of 40 gallons each,) making \$6000 per day, and one MILLION EIGHT HUNDRED THOUSAND DOL-LARS PER ANNUM. And with the same ratio of success, there will be by the first of October next, one hunbred wells producing 1000 barrels per day, which at \$15 per barrel will be \$15,000 per day and Four MILLION AND FIVE HUNDRED THOUSAND DOLLARS PER ANNUM! These figueres look large; but the indicatious are that they will be realized. The quantity that has been obtained since the first well commenced pumping, last November, has been upwards of 7000 barrels, the largest portion of which has liver st. [THE above are First Class, justly popular, and prompt 1 paying componies. They invite investigation into their condition and solicits business entirely upon their real merits. In point of solvency and reliability and honorable dealing, they have bus for equals, and no superiors. They are founded upon the very best securities in the world—first class bonds and morragages upon property in New York and Brooklyn—securities that have not, for the past ten years, depreclated below par, and are every way more reliable and permanent than relineed, bank, and other stocks, which are subject to the fluctuations of the market, and liable, in times of paste, as the experience of the past tenches, to become almost, if not entirely, valueless. And while there are Companies entering the field of composition; well calculated to mislead by publishing partial and one-sided attenuants of their condition, and without a cash surplus on hend sufficient to reinsure their outstanding risks, the above named companies always have and keep over and above their capital larket the amount, and in nost instances four times, needed for the reinsurance of all their risks. With such a foundation, and with confidence to the public for liberal petronage.

Policies issued without delay, and farms risks for a series of years takes at less rates than can be done by Mutual Companies, and a cartainty given instead of an amountainty. All losses promptly adjusted and paid.

On the Saturday afternoon previous, the t the hour of ten o'clock in the forencon of that day, at the hour of ten o'clock in the forencon of that day, the following described mortgaged premises, to wit all that certain piece, parcel or tract of land situate, lying and being in the city of Janusville, in the county of Rock and state of Wisconsin, and known and distinguished and bounded as follows, beginning on the courh bank of Rock river on the cast line of 1st number six [6], in township number two [2] north, of range number twelve [12] east, running thence south on said line to the north line of the street, which is extended from and is a continuation of Second street in Monteroy adrepublicans raised a very high pole and flung out the names of "Lincoln and Hamlin." It was quite near the house of the friend with whom I was stopping, and I was very much alarmed lest the lightning should it the north line of the street, which is extended from and is a continuation of Second street in Montrery addition to Janesville, thence west on the north line of said street to a point where the east line of Locust street, in Padmer & Sutherland's addition to Janesville, if extended, would intersect said point, thence north along the east line of Locust street, extended as aforcaid, to Rock river, and thence up said river to the place of beginning, or so much thereof as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as may be sufficient to satisfy the said judgment, and as strike it. As the storm increased in violence I retreated from the window and sat in the farthest corner, pale and trembling, as the lightning flashed its sheets of flame, and the thunder came in frightful crashes with scarce a moment's interval. But, imagine if you can the triumphant rejoicing of the "wide-awakes" when on Bennett, Cassodar & Gibbs, Attys for Piff. But he was not favored with a college education, although he has probably felt the need of it keenly, hence, interested himself greatly in the enterprise of building up a college here in the west. He has some impediment in his speech which makes him stammer. He was appointed one of the trustees of the Institute, and at one of their meetings they asked his opinion about some matters they were discussing. He arose and said very gravely: "I d-d-don't see why you have p-p-p-put me in as a t-t-t-trustee, for I d-d-ddon't know any m-more about a c-c-c-c-college, than a p-p-p-pig does about a b-b-bandbox." On Monday evening B. F. Taylor, the poet editor of the Chicago Journal, delivered a lecture before the Beltionean Society. His subject was "The words we use." The memory of it to me now, is like that of some beautiful song that thrilled me with its perfect fullness of melody and joy. I listened to him with almost breatbless attention, sometimes with tears, sometimes with smiles and little gushes of laughter. It was a rich intellectual feast, a marvel of beauty and good sense combined.

Then an address from ex-President Matlack, the loved "uncle Lucius" of my childhood, the dear friend, honored teacher and pastor of later years. Then the degree of "Bachelor of Arts" was conferred upon the graduates by President Blanchard.

In the evening there was a pleasant gathering beneath the hospitable roof of L. E. DeWolf, Esq., where I had the pleasure of greeting many of my old schoolmates and friends whom I had not seen for several years. But I fear I have wearied your patience, dear reader; if so pardon me, while I, with many kind wishes, bid you-adieu. CORA MAY.

These figures look large; but the indications are that they will be realized. The quantity that has been obtained since the first well commenced pamping, last November, has been upwards of 7000 barrels, the largest portion of which has been shipped to New York city; the balance has been distributed in Pittsburgh,

Cleveland, Chicago, Buffalo and other points, As a lubricator it is meeting with a very favorable success; quite a number of or-ders have been filled from Iowa and Wisconsin exclusively for that purpose. The same having been duplicated, shows that there is little reason to doubt that it will not come into general use for that purpose, As an illuminator it proves itself superior to anything that has yet been produced. There is a refinery at this place, which will be ready to go into operation in a few days; and also several others at various points,

COMMITTEE MEETING .- The officers and committees representing the Sunday schools of this city will meet at the Methodist church This Evening, at 8 o'clock, to make arrangements to receive and entertain the Madison and other "Bands of Hope" which will visit this city next Monday. All other persons interested are invited to attend this meeting.

Janesville having shown what she can do in the way of visiting, now intends to show how well she can act in the capacity of receiving her friends.

AN INCIDENT NOT TELEGRAPHED,-A laughable incident occurred at the Douglas celebration in Fond du Lac which the telegraph did not report and which the Press, the Douglas newspaper there, will not probably notice, but which nevertheless will bear relating. While the procession was crossing Division street bridge over Fond du Lac river, it gave way under such an unwonted load of democracy as had gathter below. Fortunately the mud was much deeper than the water, and no other serious consequences ensued than the fright and the thick envelope of slough material brought up by those whom the bridge refused to transport in safety over this peril in the line of march. We are informed that the first person in and the last one out was the jolly Indian agent, A. D. Bonesteel, and that when he emerged from his soft bed he was covered with a garment, from his head downward, that made him a blacker representative of democracy than many of the dark-skinned southerners his party are endeavoring to send into the free territories of the north. Several ladies took the unwelcome descent, and when res cued, appeared in a much deeper shade of mourning than is a usual style of dress at a gala celebration. The light of torches changed to a scene of merriment among a crowd of fun-loving boys, what might otherwise have been a serious accident.

FATAL ACCIDENT AT HARVARD .- Last Friday afternoon Mr. A. C. Wilson was instantly killed at Harvard station, on the and on arriving at home, Mr. Knight's Chicago and Northwestern railway. An several others, were pushing the car, when ed a more melancholy case than this. as the rope tightened a hook on the end of the rope which hitched on the engine slipped, and the rope was thrown off with great violence. The hook struck Mr. Wilson on the head, fracturing it badly and scattering the brain around. Mr. Wilson had been on the road for several years, and was highly esteemed. Among other duties performed for the company, he superintended the building of the fence between this city and Harvard. He was 25 years old, unmarried, and his parents reside in Nashua, N. H.

Der Our readers will be pleased, we are sure, to notice that our gifted correspondent, Cora May, is again using her pen for our columns.

The committee to whom was referred the memorial of citizens in regard to the Galena & Chicago Union and Milwaukee & Mississippi railroads-consisting of the Mayor, City Attorney and Aldermen Smith, Belton, Bates and Shelton, are requested to meet at the office of R. B. Treat, this (Monday) evening, July 23d, at 8 o'.

ATLANTIC MONTHLY .- O. J. Dearborn at Newell's has received the August number of the Atlantic Monthly. It has an attractive table of contents.

BLACEWOOD'S MAGAZINE. - Leonard Scott & Co., of New York send us the July number of Blackwood. They reprint the English Quarterlies and furnish them all, including Blackwood, for \$10; or Blackwood alone for \$3,00.

Dogs-How to use them Profitable. The most profitable use that nine-tenths of all the dogs in the county could be applied to is to mix about five dogs with a barrel of lime and ten cart loads of muck, in a compost heap. A barrel of wood ashes may be added to help the decomposition of the bones. We believe that a dressing of this compost, applied to sheep pastures, would greatly enhance the production of wool.

We have had another splendid day for the harvesters. There was a slight show er last night, but it did no damage to the wheat while it benefitted the corn and potatoes.

- Population of Madison .- We learn that the population of Madison, made up by the census taker, is 7,100. They were all astonished at the low figure, and by common consent agreed to say nothing about it.

The Madison Argus says that the number of farm mortgages on the La Crosse road is 1,700. The mortgagors have entered into a regular organization, and have

employed S. Park Coon to defend their interests in the courts. BRACELET LOST .- A gold bracelet was lost yesterday in the street between the residence of O. S. Wright, Academy street,

and the Congregational church, or in the church. The finder is requested to return it to Mr. Wright's or leave it at this office, and recieve a suitable reward.

BREAST PIN FOUND .- A breast pin will he returned to the owner by applying at this office and producing suitable proof.

The returns already received at Washing. ton from Illinois, clearly indicate the total population of that state to be, 1,800,000 against 8:1,000 in 1850. .

The great strife between the Douglas and Breckinridge wings of the democratic party is not to elect either one of these gentlemen—they have given that upbut to determine who shall lead the demoeratic party in 1864.

The Chicago Times pretends to have heard that in some townships in Wisconsin, dozens and scores have left the republican party and joined the Douglas democracy. It may have heard such things, but a greater lie never was penned. There FIFTY PER CENT SAVED is no such township in Wisconsin, nor are there any such dozens or scores of men who have made asses of themselves. Let the Times name one such locality, if it can

THE WHEAT CROP AND THE STORM .- The Chicago Press and Tribune has despatches from about forty different places in Illinois, Wisconsin and Iowa, in relation to the effect of the storm of Friday and Friday night. The general response is that no damage was sustained-wheat out of the way of rust and an enormous crop every

NORTH CARULINA .- A state election takes place in North Carolina, one week from next Thursday. The candidates for governor are Ellis, dem., the present incumbent, and a supporter of Breckinridge; and Pool, a supporter of Bell. Douglas candidates are not nominated or thought of. If the Breckiaridge candidate should be elected, the Bell ticket for the presidency will decline, and Breckinridge will be considered the candidate of the south. Hence ered upon it, and let the crowd into the wa- the election is considered of great import-

Bes A very severe drouth afflicts the teritory of Kansas. On the 11th a hot wind olew from the south for twelve hours, which raised the thermometer to 115° in the shade at Leavenworth, Topeka 107°, and Kansas City at 106°. The Topeka Record is nnexpectedly gratified to learn that spring wheat will yield from 4 to 10 bushels to the acre, in that vicinity.

There is to be a grand mass meeting of the republicans of Illinois at Spring. field, on the 8th of August. As this gathering of the people is to be at the home of "honest old Abe," we don't see why it should be confined to Illinois. Trumbull, Corwin, Schurz, Frank Blair, and others are to speak.

A little son of Mr. D. B. Knight, of Middlebury, Elkhart county, Ja., was frightened to death last week. He, with a young companion, was gathering strawberries He, with a young when the owner of the premises appeared and threatened to set his dogs on them and shoot them if they did not leave. The little fellows ran home as fast as they could, was found to be crazed with terror. He engine had got off the track, and a drag fancied that the dogs were after from and that he find been shot. His fright at last fancied that the dogs were after him, and rope attached to a freight car was used to produced convulsions which ended his life haul the engine back. Mr. Wilson, and in a few days. > VINCENNES, July 21. GRAND REPUBLICAN DEMONSTRATION AT VINCENNES, IA .- From six to ten thousand people assembled here to day to hear Cassius M. Clay speak. It was the largest political gathering ever held in this section of the state. Extra trains ran over all railroads. Great enthusiasm was manifested. One delegation was headed by eight yoke of oxen drawing a platform upon which were men splitting rails. Speeches were made by Judge Kitchell and Nathauiel Usher.

AN INCIDENT NOT TELEGRAPHED .-- A laughable incident occurred at the Douglas celebration in Fond du Lac which the telegraph did not report and which the Press, the Douglas newspaper there, will not probably notice, but which nevertheless will bear relating. While the procession was du Lac river, it gave way under such an ered upon it, and let the crowd into the water below. Fortunately the mud was much deeper than the water, and no other serious consequences ensued than the fright and the thick envelope of slough material brought up by those whom the bridge refused to transport in safety over this peril in the line of march. We are informed that the first person in and the last one out was the jolly Indian agent, A. D. Bonesteel, and that when he emerged from his noft bed he was covered with a garment, from his head downward, that made him a blacker representative of democracy than many of the dark-skinned southerners his party are endeavoring to send into the free territories of the north. Several ladies took the unwelcome descent, and when res cued, appeared in a much deeper shade of mourning than is a usual style of dress at are to speak. a gala celebration. The light of torches changed to a scene of merriment among a crowd of fun-loving boys, what might otherwise have been a serious accident.

Let us prepare for the Work to be Done.

The people of this region of country, are acarly all engaged in securing the great wheat harvest with which they have been forered. We do not desire to call them from the good work in which they are enraged: but while they labor they can think : and in their hours of rest, they can talk, one with another. What we desire to suggest is, that republican friends should think over and talk up the best plan for the most therough organization of their respective neighborhoods and school districts, while ther are cogaged in the harvest; so that when they get through they will be ready to take hold of the task of electing a republican president with earnestness and vigor, and according to a well settled plan. It is needful that republican clubs should be tormed, voters onumerated, newspapers and dotuments circulated, the doubtful convinced, and the lake-warm filled with enthusiarm. It won't do to settle down into the belief that this election is to be determined without work, or that it is soft to go into the laule without organization.

It looks now as if we remublicans would have nothing to do but look on and see the Illikenny cars ent cach other up; but these cals have been known to make up, stop "versiching each other's eyes out," and to girch into their common enemy, with more | 2d vigor than it was supposed they could possees, after vigorously caffing one another for a considerable period. We command this felling characteristic to our friends, and warn them to be ready for any such charge in the fight which is now going on.

Republican Moutings in Illinois.--The republicans of Maccupin, Green and Jer. 2d soy counties, had a meeting at Carlinville, Ill. on the 19th, which was remarkable for 24 its numbers and enthusiasm. A correspondent of the Chicago Press says there were 25,000 prople present. By actual count 2d there were 5,000 vehicles on the ground, while many people come on horseback and on foot. Persons come from a distance of | 2d forty miles. The greatest enthusiasm pre-

Another republican meeting was held at 2d Greenville, in Upper Egypt, on the 20th, at | which 11,000 people were present. They 2d had a grand procession, more than two miles long, with flags, banners, rails, manls and music. It was by far the most enthu- 26 stastic political meeting ever held in that part of the state. Judge Trumbull and 2d Gov. Totes were the principal speakers.

The Breckinridge meeting in New York chr. on Wednesday night, outnumbered the Douglas meeting two to one .- 2d John Van Buren, Levi S. Chatfield and Depiel S. Dickinson were there. That was a grand conjunction of political stars- 2d some of them, however, of the "red dog"

In Alabama, for instance, all the leading democratic papers have openly declared for Douglas for president.—McGregor Times. We suppose the Times does not call the Monigomery Mail and the Mobile Tribune, which support Breekinridge, leading demo-

eratic papers, does it? THE DOUGLAS DISUNIONISTS .-- Here in the north the Donglas men profess very 24, great love for the Union; in the south they 2d

talk as follows: From the Alabama Daily Southern Confederacy, a Doug-in- paper. But If the worst does come: if Lincoln

is elected, let us with one heart and mind forget the past, AND GO OUT OF THE 2d UNION TOGETHER. If we permit the blacks to come into power and allow them to govern us they will, in four short years, inilict a mortal sting upon slavery from 2d which it will never recover. We must not

ACF Mr. Douglas is down in New England "on business." At Boston they called him out and he made a speech, in which my "gur-reat pur-rinciple" is frequently 2d mentioned. As he did not tell them what that is we will give the best definition of it we have seen: It means that when one man is attempting to enslave another, no third man shall interfere.

The Eaptists of Wisconsin, according to the report of their state convention number 10 associations, and 189 churches, with a membership of 8,775. There 129 pastors, 2d and the number baptized within the associational year ending 1859 is 694. The argest churches are those of Juda and Delgran, numbering 276 and 264. DEMOCRATIC DAILY ENQUIRES is the title of a neat daily just commenced at Milwaukee. It is published by Ellis & Judges-M. S. Cogswell, Beloit; J. W. inridge and Lane.

For the Daily Gazette. A Letter from Cora May.

At home again! Beautiful words, blessed reality. But where have you been, why did you go, and what did you see, Cora? Does any one care to know? Well, it was only a little journey southward, full of delightful experiences and pleasant incidents to me, but possibly an account of them would be prosy and dull to you, kind reader. But, passing over minor idetails, I will 2,00 tell you something of my visit to Wheaton, Illinois, of the college, commencement, etc.; so, if it pleases you, I will take a little extract from the catalogue which will give you some idea of it:

2,00

"Wheaton College is the successor of the lining is sounded and for six years lining is friends and all to heave too.

It is now un. | 2t least five hundred times over by countder the patronage and control of Orthodox Congregationalists, with the co-operation of larks, jays, sparrows, robins, and the whole its founders, the Wesleyans."

I arrived at Wheaton the week before commencement day—which came on the There were examinations and lectures, entertainments and amusements of a varied. character, which made the time pass pleasantly and rapidly away. The Sunday previous to the 4th, President Blanchard degive you no idea of that, it was grand and after their performance. beautiful, yet simple, plain, and practical. seven in number to listen to the applicathere, the good old man who has went and prayed over it, who has done all in his power to sustain and strengthen an institution so much needed here in the west.

By the way, I must tell you a little anecdote concerning him, trusting he will pardon me if it ever meets his eye. He is a very successful minister, a most devoted Christian, beloved by all. But he was not favored with a college education, although he has probably felt the need of it keenly. hence, interested himself greatly in the onterprise of building up a college here in the west. He has some impediment in his speech which makes him stammer. He was appointed one of the trustees of the Institute, and at one of their meetings they asked his opinion about some matters they were discussing. He grose and said very gravely: "I d-d-don't see why you have p-p-p-put me in as a t-t-t-trustee, for I d-1-ddon't know any m-more about a c-c-c-college, than a p-p-p-pig does about a b-h-bandbox." Of course the dignified assemblage laughed loud and long.

On Monday evening B. F. Taylor, the post editor of the Chicago Journal, delivered a lecture before the Beltionean Society. His subject was "The words we use." The memory of it to me now, is like that of some beautiful song that thrilled me with its perfect fullness of melody and joy. I listened to him with almost breathless attention, sometimes with tears, sometimes with smiles and little gushes of laughter. It was a rich intellectual feast, a marvel of beauty and good sense combined.

Tuesday evening Dr. Beecher delivered a lecture before the senior class. A terrible thunder shower came sweeping over us, which I had not the courage to encounter. so I lost the pleasure of listening to it.

On the Saturday afternoon previous, the republicans raised a very high pole and flung out the names of " Lincoln and Hamlin." It was quite near the house of the friend with whom I was stopping, and I was very much alarmed lest the lightning should. strike it. As the storm increased in viclence I retreated from the window and sat in the farthest corner, pale and trembling, as the lightning flashed its sheets of flame, and the thunder came in frightful crashes

with scarce a moment's interval. But, imerine if you can the triumphant rejoicing of the "wide-awakes" when on the morrow-the 4th of July-the discovery was made that the Douglas pole was shivered to the ground, while "Lincoln and Hamlin" floated triumphantly far up in the blue sky. The democrats looked crostfall.

The glorious fourth-commencement day -was bright and beautiful, and the exercises were held in a grove near by. We had beautiful singing, a fine band of music, and splendid orations from the graduates, who acquitted themselves nobly. Then an address from ex-President Matlack, the loved "uncle Lucius" of my childhood, the dear friend, honored teacher and pastor of later years. Then the degree of "Bachelor of Arts" was conferred upon the graduates by

ering beneath the hospitable roof of L. E. DeWolf, Esq., where I had the pleasure of greeting many of my old schoolmates and friends whom I had not seen for several years. But I fear I have wearled your patience, dear reader; if so pardon me, while I, with many kind wishes, bid you-a-lieu. CORA MAY.

USEFULFESS OF BIRDS, -Birds are the tribe of thrushes, are indefatigable friends of the garden and farm. They never boast of their services. They seem quite unconscious of their usefulness. They make no fourth of July. We once resided there sev- demand upon the farmer, on the score of eral months, so I was warmly welcomed by beauty, soug or service. They perform many dear friends. It was a busy week. sect plague under all discouragements, and even when requited with abuse and persecution. With these services they also bring to us an amount of enjoyment in their songs which no man of sensibility can fail to appreciate, and which is not a whit livered the baccalaureste sermon. AN INCIDENT NOT TELEGRAPHED .- A celebration in Fond du Lac which the teleunwonted load of democracy as had gathered upon it, and let the crowd into the water below. Fortunately the mud was much deeper than the water, and no other serious consequences ensued than the fright and the thick envelope of slough material brought up by those whom the bridge refused to transport in safety over this peril in the line of march. We are informed that the first person in and the last one out was the jolly Indian agent, A. D. Bonesteel, and that when he emerged from his soft bed he was covered with a garment, from his head downward, that made him a blacker representative of democracy than many of the dark-skinned southerners his party are endeavoring to send into the free territories of the north. Several ladies took the unwelcome descent, and when res mourning than is a usual style of dress at a gala celebration. The light of torches changed to a scene of merriment among a crowd of fun-loving boys, what might otherwise have been a serious accident.

FATAL ACCIDENT AT HARVARD .- Last Friday afternoon Mr. A. C. Wilson was instantly killed at Harvard station, on the Chicago and Northwestern railway. An engine had got off the track, and a drag rope attached to a freight car was used to haul the engine back. Mr. Wilson, and several others, were pushing the car, when as the rope tightened a hook on the end of the rope which hitched on the engine slipped, and the rope was thrown off with great violence. The hook struck Mr. Wilson on the head, fracturing it badly and scattering the brain around. Mr. Wilson had been on the road for several years, and was high-Iv esteemed. Among other duties performed for the company, he superintended the building of the fence between this city and Harvard. He was 25 years old, unmarried, and his parents reside in Nashua, N. H.

Dogs-How to use them Profitable.-The most profitable use that nine-tenths of all the dogs in the county could be applied to is to mix about five dogs with a barrel of lime and ten cart loads of muck, in a compost heap. A barrel of wood ashes may be added to help the decomposition of the bones. We believe that a dressing of this compost, applied to sheep pastures, would greatly enhance the production of wool.

We have had another splendid day for the harvesters. There was a slight shower last night, but it did no damage to the wheat while it benefitted the corn and po-

Population of Madison .- We learn that the population of Madison, made up by the census taker, is 7,100. They were all astonished at the low figure, and by common consent agreed to say nothing about it.

The Madison Argus says that the number of farm mortgages on the La Crosse road is 1,700. The mortgagors have entered into a regular organization, and have employed S. Park Coon to defend their interests in the courts.

BRACELET LOST .-- A gold bracelet was lost yesterday in the street between the residence of O. S. Wright, Academy street, and the Congregational church, or in the church. The finder is requested to return it to Mr. Wright's or leave it at this office, and recieve a suitable reward.

The returns already received at Washington from Illinois, clearly indicate the total population of that state to be, 1,800,000 against 851,000 in 1850.

A very severe drouth afflicts the territory of Kansas. On the 11th a hot wind blew from the south for twelve hours, which raised the thermometer to 115° in the shade at Leavenworth, Topeka 107°, and Kansas City at 106°. The Topeka Record is unexpectedly gratified to learn that spring wheat will yield from 4 to 10 bushels to the acre, in that vicinity.

There is to be a grand mass meetng of the republicans of Illinois at Springfield, on the 8th of August. As this gathering of the people is to be at the home of 'honest old Abe," we don't see why it should be confined to Illinois. Trumbull, cued, appeared in a much deeper shade of Corwin, Schurz, Frank Blair, and others are to speak.

A little son of Mr. D. B. Knight, of Middlebury, Elkhart county, Ia., was frightened to death last week. He, with a young companion, was gathering strawberries, when the owner of the premises appeared and threatened to set his dogs on them and shoot them if they did not leave. The little fellows ran home as fast as they could, and on arriving at home. Mr. Knight's son was found to be crazed with terror. He fancied that the dogs were after him, and that he had been shot. His fright at last produced convulsions which ended his life in a few days. We have rarely encountered a more melancholy case than this.

VINCENNES, July 21. GRAND REPUBLICAN DEMONSTRATION AT VINCENNES, IA.—From six to ten thousand people assembled here to day to hear Cassius M. Clay speak. Those desiring this safer and cheapest protection for heir families, can secure it in our Wisconsin company. It is no longer a matter of doubt that life insurance can be conducted as well in Wisconsin as in Connecticut or any other sastern

While duty demands that men should insure their Hives, it also demands that they should keep their money for investment at home.
